AERION

City

AERION

Most modern local public transport seat, offering perfect seating comfort.

Aerion with its range of accessories complies with all requirements of a seat of its class. Top quality and premium design give the seat its unmistakable appearance.

Its lightweight aluminum construction, modular design, embedded upholstery elements with trim-o-fix quick-change cover system, the easily accessible components without any visible screws: all these features sum up to practical construction, practical use.

With its ergonomic and ultra thin backrest, **Aerion** allows maximum legroom for the passenger and still offers a high level of seating comfort.

Versions: **Aerion** seat is available in different levels of comfort, with seat widths of 420 mm and 450 mm at each level.
Back-to-back, double or single seat, with or without upholstered pads for cushion and / or seatback.
